Card How-To

1. Download and print desired design template ([cupcake](#), [baby carriage](#), [branches](#), [deer](#), or [mushroom](#)) on card stock.
2. Apply craft glue from a fine-tipped applicator bottle along the lines of the drawing. Carefully place the yarn on the glue and clip to size with sharp scissors. To make dots, tie a double or triple knot in yarn and clip tails; glue in place. Let dry.
3. If card stock is warped when dry, place a press cloth over the card and press with a warm, dry iron. Mount the decorated card stock onto a second piece of card stock with a glue stick or double-sided adhesive to completely flatten. Place double-sided tape on the back of the mounted design and adhere to the front of a standard blank folded card.
